The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with t	he correspondence address					
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
Status							
1)⊠ Responsive to communication(s) filed on <u>05 Ja</u>	anuary 2004.						
·—	Since this application is in condition for allowance except for formal matters, prosecution as to the merits is						
, ,	closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213.						
Disposition of Claims		· .					
	Claim(s) 1-19 is/are pending in the application.						
4a) Of the above claim(s) is/are withdrawn from consideration.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Yoo (US Patent Application Publication #20040185919).

Regarding claim 1, Yoo teaches a communication subscriber device, comprising:

a subscriber basic unit (Figure 1A and 1B); and

an audio/speaking unit (Figure 1A, element 107), detachably interengageable with said subscriber basic unit, that provides audio and speaking functionality for said subscriber basic unit (Paragraphs 0010, 0024, and 0039).

Regarding claims 2 and 12, Yoo teaches the communication subscriber device wherein a short-range wireless link allows communication between said subscriber basic unit and said audio/speaking unit (Paragraphs 0010 and 0011).

Application/Control Number: 10/751,578 Page 3

Art Unit: 2684

Regarding claims 3 and 13, Yoo teaches the communication subscriber device wherein said audio/speaking unit comprises an energy supply unit (*Paragraph 0053:* Yoo teaches the power source 634 may comprise, e.g., a battery pack attached to/carried within the wireless connected unit 607).

Regarding claims 4 and 14, Yoo teaches the communication subscriber device wherein said subscriber basic unit comprises a charging station for said audio/speaking unit (Paragraph 0053: Yoo teaches the wireless connected unit 607 preferably includes an independent power source 634 for powering the connected unit when in use as a headset).

Regarding claim 5, Yoo teaches the communication subscriber device wherein said subscriber basic unit and said audio/speaking unit have complementary interfaces for electrically connecting said subscriber basic unit and said audio/speaking unit together (*Paragraph 0053: Yoo teaches the wireless connected unit 607 preferably includes an independent power source 634 for powering the connected unit when in use as a headset for electrically connecting subscriber basic unit and audio/speaking unit together*).

Regarding claims 6 and 15, Yoo teaches the communication subscriber device wherein said audio/speaking unit is constructed as a single unit (*Paragraph 0024: Yoo teaches the communication subscriber device 1A wherein audio/speaking unit*

(detachable speaker 101 and microphone 103 are joined by a detachable connector 105 to form a detachable connected unit 107) is constructed as a single unit).

Regarding claims 7 and 16, Yoo teaches the communication subscriber device wherein said audio/speaking unit has only one microphone and one loudspeaker (Paragraphs 0024: Yoo teaches a phone handset 100 having a detachable speaker 101 and detachable microphone 103 joined by a detachable connector 105 to form a detachable connected unit 107).

Regarding claims 8 and 17, Yoo teaches the communication subscriber device wherein said audio/speaking unit is constructed as a selected one of: a hands-free kit, and a headset (*Paragraphs 0010 and 0011*).

Regarding claims 9 and 18, Yoo teaches the communication subscriber device wherein said audio/speaking unit is rigid (*Paragraphs 0024 and 0025: Yoo teaches a phone handset 100 having a detachable speaker 101 and detachable microphone 103 joined by a detachable connector 105 to form a detachable connected unit 107, the connector may comprised of a rigid material).*

Regarding claims 10 and 19, Yoo teaches the communication subscriber device wherein said communication subscriber device is a mobile telephone (Figure 1A and 1B).

Application/Control Number: 10/751,578

Art Unit: 2684

Regarding claim 11, Yoo teaches an audio/speaking unit (Figure 1A, element 107), comprising:

a mechanical interface configured to allow said audio/speaking unit to be detachably interengageable with a subscriber basic unit (Paragraphs 0010, 0024, and 0039: Yoo teaches a phone handset 100 having a detachable speaker 101 and detachable microphone 103 joined by a detachable connector 105 to form a detachable connected unit 107, the connected unit is detachable from the phone handset to provide a hand-free headset wearable by a user);

an electrical interface configured to communicate with said subscriber basic unit; and a microphone and a loudspeaker coupled to said electrical interface and configured to provide audio and speaking functionality for said subscriber basic unit (*Paragraph 0056*: Yoo teaches when the wireless connected unit 607 is attached to the handset, the power supply, antenna, etc. of the handset 600 are preferably employed to operate the speaker 601 and the microphone 603).

Conclusion

 The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Rydbeck (US Patent #5,590,417) teaches radiotelephone apparatus including a wireless headset.

Jiles (US Patent Application Publication #20040204120) teaches portable telephone with wireless speaker.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dominic E. Rego whose telephone number is 571-272-8132. The examiner can normally be reached on Monday-Friday, 8:30 am-5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nay Maung can be reached on 571-272-7882. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
